Re: *De minimis* Settlement - Information Required by U.S. EPA

Action Required by August 30, 1996

U.S. EPA requires that parties to the *de minimis* settlement must identify the type of hazardous material(s) sent to the site. If the party cannot identify the type of hazardous material sent to the site, then it must provide information on the types of waste material it generated during the time its wastes were taken to the site.

Damaris Cristiano, Assistant Regional Counsel for U.S. EPA - Region II who is handling the *de minimis* settlement, has advised us that she has received this information for many but not all of the parties that indicated an interest in participating in the settlement. EPA must have this information no later than **August 30, 1996.**

If your company appears on the attached list, you must provide information concerning waste type to EPA no later than August 30. In addition, for some companies, EPA still requires information on volume. Please send your submittal to:

Damaris Cristiano, Assistant Regional Counsel
U.S. EPA - Region II
290 Broadway
New York, New York 10007
Phone: (212) 637-3140 Fax: (212) 637-3115

Also send a copy of your submittal to:
